DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The closest prior art of record, i.e. U.S. Patent Application Publication No. U.S. 2002/0009271A1, Herve et. al. (Figs.1-4) an optical fiber splicer and method of splicing optical fibers using same comprising: a plurality of optical fiber 12,14,16,11,13,15 which uses a laser 60 to splice plural fiber ends to each other with the fibers also used clamping means 59,49, on a movable XY alignment means 50,22,40, whereas a camera/control means 70,72,74 that controls the movement of fibers so that the fiber ends can be spliced using the laser means. Neither Herve et. al. or any of the prior art of record teaches or suggests an optical fiber splicer and method of splicing fibers using plural fibers, an CY movable table, a tray mounted on the XY table, means for fixing the first and second optical fibers opposed to each other in close relationship, first and second clamp means for clamping a selected one of the first and second fibers, first and second vertically movable electrodes, first and second camera means and means for processing images picked up by the cameras. Also, the feature of deforming means for bending a part of the first group of fibers to define a second gap that is larger than a first gap between opposed fiber ends and splicing means for splicing the pair of fibers after reducibe the second gap to the first gap. The electrodes are used for performing pre-discharging to clean portions of the fiber ends before final discharging splicing the electrodes. These limitations are recited in claims 1-20 and are considered to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian M. Healy whose telephone number is (571)272-2347. The examiner can normally be reached on Compressed Schedule Tues-Thurs. 7AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank Font can be reached on (571)272-2415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
